The basis of greenhouse gas emission and energy here it was modified to describe the transformation of a land environment and economic dimensions. Originally the policy framework was proposed by Grubb et al. 2014.

May 19th, 2020 - A framework was first developed to illustrate the three domains of land use strategies in the environmental and economic dimensions. Originally the policy framework was proposed by Grubb et al. 2014 on the basis of greenhouse gas emission and energy. Here it was modified to describe the transformation of a land-based economy in which the emission dimension was replaced by a broader sense.

May 26th, 2020 - Agrarian transformations market integration and globalization processes are impacting upon rural southeast Asia with increasingly complex and diverse consequences in response local citizens are devising a broad range of resistance measures that they feel will best protect or improve their livelihoods ensure greater social justice and equity or allow them to just be left alone.

May 31st, 2020 - Difficult return Muslims ambivalent attachments to Jaffna in post conflict Sri Lanka. Diotima Chattoraj and Eva Gerharz. Abstract This article focuses on the experiences aspirations and challenges of Sri Lankan Muslim returnees to the northern part of Sri Lanka Jaffna and analyzes their strategies to cope with the ambivalent.

June 1st, 2020 - Social change and the family. Sociological anthropological and historical perspectives. Most populations of Europe and Asia made the transition from rural societies dependent upon agricultural livelihoods to predominantly urbanized industrialized and market based societies. One of the most significant processes of social change in the modern world.

June 13th, 2019 - By contrast, palm oil exports from east borneo are mainly from private company landholdings and are exported predominantly to China and other Asian countries.

June 1st, 2020 - Asia pacific no deforestation no peat no exploitation the pledges echoing throughout the palm oil sector as major consumer goods manufacturers and retailers seek to remove deforestation from supply chains sound simple enough but the commitments are highly complex and major palm oil corporate groups along the value chain are struggling to clearly define.
